

Laparoscopic gastric banding – patient feedback questionnaire.

(We would like to have your feedback to try and improve this experience and increase the success of the procedure – thank you to giving us your thoughts)

1. Did you receive adequate explanation of the procedure?
2. Were there any parts of the procedure that you felt you didn't understand by the final consultation?
3. Was the time to surgery too long from the initial consultation?
4. Do you think that you were well prepared in terms of what to expect at surgery and in the postoperative period?
5. Was there adequate explanation about the dietary requirements?
6. Did you feel like there was an understanding from the staff of your problem and they would help in your solution/weight loss?
7. Being overweight has complex causes, do you think there should be more emphasis on dealing with the psychological aspects of weight gain?
8. Did the surgical medical staff make you feel they understood your problem with weight and were positive about a lap band solution?
9. Did the administrator staff provide a positive helpful environment to deal with your surgical solution/lap band?
10. Was the surgery and post operative care a positive and well conducted experience for you?

If you would like to submit any other comments that you think might be helpful in improving this whole process/procedure please do so.
